2. Warehouses.
3. Petroleum bulk storage plants.
4. Residential uses except those classified as caretaker.

Section 6-107. Certain uses lying in Airport Noise Zones declared incompatible and excluded.

Airport noise zone A is a relatively high noise area best suited for agricultural use or industrial use when a high noise level can be tolerated. Any structural development must meet the criteria for height restrictions as well as compatibility.

The following uses are hereby declared incompatible with the purpose of airport noise zone A and are hereby expressly excluded for any part of this district located airport noise zone A:

1. All residential dwellings
2. Churches, schools, colleges, rest homes, retirement homes, and similar facilities.
4. Hospitals and clinics.
5. Office buildings.
6. Mortuaries, funeral homes, and funeral chapels.
7. Industrial and manufacturing establishments or other uses which produce smoke interfering with the safe use of the airport.
8. Any other use, which would create electrical interference with radio communications between the airport and aircraft, make it difficult for fliers to

distinguish between airport lights and others, result in glare in the eyes of fliers using the airport, and impair visibility in the vicinity of the airport.

Airport noise zone B is ordinarily a relatively low noise area with no restrictions. Hospitals, churches, auditoriums and such should consider sound control in design of facilities if located in this zone and especially if located in areas of this zone closest to the airport. The reason for the establishment of noise zone B is to notify the general public that such an area is in the established airport noise zones and as such may be subjected to noise pollution.
